## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 7-13, are drawn to a voltage regulator with the processor core.
  - II. Claims 38-45 and 49-52, are drawn to a voltage regulator and a processor core and a state machine.
  - III. Claims 56-61, are drawn to a state machine and the processor core.
  - IV. Claims 46-48 and 53-55, are drawn to the pad ring and the processor core.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III, and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are: invention I has a voltage regulator with the processor core; invention II has a voltage regulator with a processor core and a state machine; invention III has a state machine with a processor core; and invention IV has a pad ring with a processor core.
3. A telephone call was made to Mr. Kenneth Seddon on 6/10/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
